

To the women of Quail Creek,

I just again wanted to thank everyone for your generous gift that has allowed me to pay for the entire first semester of my journey through college. I cannot explain how grateful I am that organizations like yours exist. I know that through out my experiences of achieving my goals for my future, I will always remember the ones who helped me get there. I also know that this scholarship has helped people before me, and I know it will help many others after, so again I want to thank you for helping girls in our community achieve their greatest potential. You guys are truly all amazing women, and again I couldn't thank you enough. -Dana R
